

Open Dump Cleanup Program

Watch Out for Our Land

The Open Dump Cleanup Program locates open dump sites within reservation boundaries to manage their cleanup. We request your assistance in sharing information about any sites you are aware of. Dumps are unsightly, may cause mosquito/vermin problems, and contaminate land and water. Please join us in cleaning up our land to keep the Choctaw Nation beautiful for future generations.

Questions? Contact (800) 522-6170 or EC@choctawnation.com

Information Needed:

- Dump site location
- Photo(s) identifying the type of waste at the location
- Any other identifying factors that could be helpful
